

Tired of Throwing Money Out the Window?

HCC invites you to attend a **Boiler/Energy Conservation Course**

DID YOU KNOW that for every degree you raise your building's temperature, fuel costs increase by 3%?

STOP throwing away \$\$\$ in fuel attempting to regulate the temperature of your building by opening windows.

LEARN how your building's heating system operates:

preventive maintenance & troubleshooting for your boiler & burner

fuel efficiency (budgeting costs, getting fuel records, reducing consumption, joining bulk buying groups)

energy conservation & energy saving products
weatherization agencies & contacts

January 27 - March 5, 2009

Thursday and Thursday Evenings (6 weeks)
6:30pm - 8:30pm

Hartley House
413 West 46th Street
(between 9th & 10th Avenues)

\$225 - individuals & non-profit groups
\$300 - for-profit & management groups
(pre-registration required)
